Your day is already full of obstacles — and when you're hurting, life is that much harder. CounterAct™ Adult Pain Relievers are the key to fast pain and fever relief. Each quick-dissolving, easy-to-swallow caplet gives you reliable medicine, yet costs up to 50% less than retail brands. Choose Extra-Strength Acetaminophen, the most widely recommended pain-relieving ingredient for all-over pain and fever. Or for tougher pain and inflammation, CounterAct Ibuprofen will give you stronger, longer-lasting relief. When pain keeps you up at night, CounterAct PM helps you rest with an added sleep aid. So for any type of discomfort, your first choice should be CounterAct.

Relief That Fits Your Specific Needs

CounterAct Extra Strength Acetaminophen
CounterAct Extra Strength Acetaminophen works in a unique way to fight pain. It won't irritate the stomach like aspirin, won't interact with most prescription drugs, and it's unlikely to cause any side effects. In fact, it is recommended over other pain relievers for*:

- Pregnant or nursing women
- People with high blood pressure
- Ulcer sufferers
- Kidney or liver patients
- Osteoarthritis sufferers
- Senior Citizens
- Children (over age 12)

* read label carefully and consult a physician

CounterAct Ibuprofen

When you need targeted pain relief, turn to CounterAct Ibuprofen. It has the same anti-inflammatory properties as aspirin, but is gentler on the stomach. Doctors prefer it for painful conditions such as headaches, muscle aches, sore joints and menstrual cramps.

Why does CounterAct Ibuprofen work better for these conditions? Ibuprofen targets *prostaglandins*, the body's chemicals that send pain messages and cause inflammation. Because CounterAct Ibuprofen goes right to the source of the pain, you get up to eight hours of relief with just one caplet.

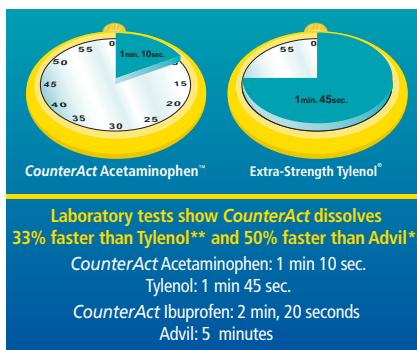

Cost Comparison†

CounterAct Acetaminophen:	\$3.29

CounterAct PM

When pain keeps you up at night, turn to CounterAct PM. Nothing is better for occasional insomnia and pain.

CounterAct PM combines acetaminophen, the most recommended pain reliever, and a gentle sleep aid. You'll get the health-restoring sleep you need, but you won't feel groggy or sluggish in the morning.

Feel Better Fast

CounterAct Pain Relievers feature rapid-dissolve caplets. Laboratory tests show that CounterAct Acetaminophen caplets dissolve 33% faster than the leading brand, and CounterAct Ibuprofen dissolves over 50% faster! So when you want quick relief, you know where to turn — CounterAct.

Better Cost and Convenience

Effectiveness doesn't have to be expensive! CounterAct Extra Strength Acetaminophen costs only 2/3 the price of Tylenol**, and CounterAct PM costs 40% less than Tylenol PM! And with the convenience of Melaleuca Pharmacy™, all you need to do is pick up the phone, and your relief will be delivered right to your door! You'll save time, save money and eliminate more headaches with CounterAct.
