

## *Triple Antibiotic Ointment*

*Maximum-Strength  
Infection Fighter*

You can pack peace of mind in your first-aid kit with the guaranteed power of Triple Antibiotic Ointment. It has three powerful medicines to fight infections and help minor cuts, scrapes and burns to heal, plus the natural soothing power of Melaleuca oil.

Clinical tests have shown that topical antibiotics like those in

**Triple Antibiotic Ointment** reduce inflammation and pain, fight infection and help wounds close and heal.<sup>1</sup>

### **Unique Formula**

- A maximum-strength combination of three antibiotics to ensure complete protection plus Melaleuca oil

### **Completely Effective**

- Kills up to 99.9% of bacteria, including Staphylococcus, Streptococcus and Pseudomonas

### **Quick Relief**

- The soothing ointment moisturizes skin and never stings or burns

<sup>1</sup> *Handbook of Nonprescription Drugs*, American Pharmaceutical Association, p. 591.

**O**uch! That cut on your finger is sorer today, and it's all red around the edges.

What can you do besides slap on a bandage? Fight the infection — get strong antibiotic power with Maximum Strength Triple Antibiotic Ointment. The three powerful medicines kill up to 99.9% of infection-causing bacteria. And with soothing Melaleuca oil, the formula is gentle and nonstinging so your injuries feel better fast. You'll help minor cuts, scrapes, burns and infections heal faster with Triple Antibiotic Ointment.

### Unique Formula

Other over-the-counter topical ointments may contain one or two antibiotics. Some expensive maximum-strength formulas contain three. But none of them provide all three bacteria-fighters plus the penetrating, soothing powers of Melaleuca oil. Triple Antibiotic Ointment blends these scientifically proven ingredients — Bacitracin, Neomycin, and Polymixin B Sulfate — with Melaleuca oil. You get infec-

---

Laboratory tests show Triple Antibiotic Ointment kills 99.9% of bacteria like *Staphylococcus* and *Pseudomonas* that cause infections.

tion-fighting power that's unstoppable, plus soothing relief.

### Completely Effective

When your skin is broken or irritated, bacteria are sure to move in and start an infection. That's why it's important to treat all wounds immediately. Triple Antibiotic Ointment kills up to 99.9% of bacteria that cause troublesome infections. Some strains of these bacteria, like *Staphylococcus*, *Streptococcus* and *Pseudomonas*, are stubborn and persistent. But laboratory tests have shown that the active ingredients in Triple Antibiotic Ointment effectively neutralize these bacteria and many others.

### Quick Relief

Triple Antibiotic Ointment goes smoothly and painlessly on wounds. It has moisturizing ingredients that rehydrate skin, bringing back moisture that's especially important to the healing process. The ointment is designed to stay put, too, so the protection lasts longer. With this soothing relief and natural boost of Melaleuca oil, it is far and away a better alternative to grocery-store brand first-aid formulas.

### Peace of Mind

Don't take chances — when you want to make sure wounds stay clean and infection-free, use Triple Antibiotic Ointment. You'll wipe out bacteria while moisturizing wounds, helping them to heal.

## The Benefits of Triple Antibiotic Ointment

- Unique triple-duty formula
- Contains soothing Melaleuca oil
- Kills up to 99.9% of infection-causing bacteria
- Helps minor cuts, scrapes, burns and infections
- Nonstinging ointment moisturizes wounded skin
- Helps wounds heal faster

## Triple Your Protection

Triple Antibiotic Ointment contains three powerful bacteria-fighting agents:

- Bacitracin
- Neomycin
- Polymixin B Sulfate

And, unlike any other first-aid ointment, you also get Melaleuca oil. It's a soothing ingredient that really makes a difference.

ACTIVE INGREDIENTS: Bacitracin, Neomycin, and Polymixin B Sulfate.
